

School Testimonials

Just to thank you so much for the very fast and efficient service you always give. Once a phone call is made, you are able to collect re-cycle goods, and deliver the order, usually on the same day as the call!

Also many thanks for setting up an on-line account for us and putting in the items we usually order to enable us to order on-line too. The 'collecting points' on-line appears to be very good and we look forward to using this in the future as we make further orders.

Drayton Middle

As a local school we depend on Andy Wymer of Lasertech Norwich for all our photocopier and ink cartridge supplies and other items within our school. His personal service is professional, first class and can not be matched with any other company we have ever dealt with.

We get low prices on all items purchased – no need to look around for competitive prices as Lasertech always beat other companies for price. Delivery is first class and always on the same day of order.

A personal service like no other, if we have any problems with our printers, faxes, etc Andy is always there to help and solves our problems with one visit.

Any faulty item, albeit extremely rare replacements are immediate.

All recyclable items are taken regularly and credited to our account.

For a hassle free, courteous, reliable and 100% service we have no hesitation in recommending Lasertech Norwich to any other school, company or business.

Hemblington Primary

I have now been dealing with Lasertech for about 4 years after trying many dealers. I have found Lasertech by far the best, not only for price but for service and courtesy. I find Andy extremely helpful and always delivers quickly and he even puts the paper away for me. I have had many phone calls from other companies but would not deal with any other company.

Lodge Lane

It's so easy dealing with our Norwich rep Andy Wymer. He's only a phone call away and will do his best to deliver the same day. We also recycle our old cartridges with Lasertech and receive credit notes. An excellent service all round!!

Hingham Primary

I have ordered supplies from Andy for several years (previously at another school). Prices are competitive. Delivery is excellent usually same or next day. If we are desperate for an item he will deliver as soon as possible.

Andy takes anything heavy i.e. copy paper to the relevant room/storage area. He will fit ink cartridges for us and has on occasions cleaned the printers – what a star.

Andy is always cheerful & accommodating – he has become a friend of the school. What a star!

Tuckwood Primary

I can always rely on Andy for fast efficient service; toners are usually delivered within the hour the quickest being less than 15 minutes! He takes away most of our cartridges for recycling and the money we get back goes some way towards our next order.

Thorpe St. Andrew High

I have always found Lasertech to provide fast, efficient and friendly service.

Recreation Road Infant

Since September 2007 I have used Lasertech Norwich for most of our printer consumables. The service has been excellent with very competitive prices. Old cartridges have been collected for recycling when new ones are delivered which is very useful for us as we are very limited on storage space.

I would thoroughly recommend Lasertech Norwich.

Norwich Excellence Partnership

We have been using Lasertech for some time now and have found the service second to none. Andy always does his best to deliver the same day if possible.

Larkman Primary

We use Lasertech because they are efficient, friendly and reliable. An urgent request is never too much bother: Andy's is always here early the next day, and often the same day should the need arise and is able to help. It's great that by recycling our used cartridges via Lasertech, we not only save money for our school, but are also helping to save the environment.

Earlham High

I would just like to say how friendly, polite and helpful Andy Wymer is. When we phone him, his delivery is either the same day or next day depending on whether he has the goods in stock. You can be very proud of him - he's a great asset to your Company.
