

Brothers do the Business

The Lasertech Franchise Network now has 40 franchisees operating throughout the UK. They operate from fully stocked vans supplying printer consumables to the end user.

When Brian Gray – Lasertech Chelmsford began investigating the franchise market he set out four attributes the franchise had to offer for him to know it was the right business opportunity for him; low overheads, aiming at the right market and supplying a product that is a necessity, plus something he knew he would enjoy. With this in mind the Lasertech Franchise offered precisely these things. Being a van based franchise supplying printer consumables to businesses in an exclusive territory Brian knew he could build a long term profitable business.

Brian launched Lasertech Chelmsford in September 2003 and the first 4 months of business have proven to be very successful. He can see a very strong and profitable future. As Brian became established Bob his brother saw the benefits of the Lasertech Franchise Opportunity and with Brian's encouragement joined the Lasertech Franchise Network. Both Brian and Bob now operate Lasertech Franchises in neighboring territories. Bob explains why he took a Lasertech Franchise "When I saw how happy Brian was becoming with his new franchise I knew that what Lasertech had to offer was for me, with Brians encouragement and advice I am now running Lasertech Harlow and look to have very happy and successful future."

If you want to own and build a long term profitable business like Brian and Bob Gray contact Ruth Brown on 0870 787 23 23, email franchise@lasertech.co.uk
